

**Help is  
within reach**

A natural, environmentally friendly citrus solvent that dissolves the build up of body and bath oils, dirt, hair, soap scum, rust and mineral deposits which are a PERFECT BREEDING ground for **Bacteria and Mold**

As an added feature **CLEAN•WAY™** can be used full strength for tough clean up jobs on all washable surfaces. For regular cleaning dilute 1 part **CLEAN•WAY™** to 10 parts water. Now you have one cleaner for your tub inside and out.

Also works great  
for all  
sanitary surfaces.

- Showers
- Vanity Tops
- Sinks
- Kitchen Countertops
- Tile
- Toilets

**Don't share your  
whirlpool tub  
with**

**Bacteria  
and  
Mold!**

Most whirlpool bath tubs, hot tubs and spas have over 24 feet of complex pipes and fittings that gather an "internal bath tub ring" that just can't be wiped off with

Internal bath tub ring without  
**CLEAN • WAY™**

regular cleaning. Body and bath oils, dirt, hair, soap scum, even rust and mineral deposits from your water are pumped through the whirlpool system many times over with each bath. Even if you bathe

without using your whirlpool system the bath water still enters the piping system leaving these deposits behind. Imagine if you never wiped off the normal "bath tub ring" for a few years. You probably wouldn't want to get in your tub again.

## "Did you know your whirlpool tub is a perfect breeding ground for bacteria and mold".

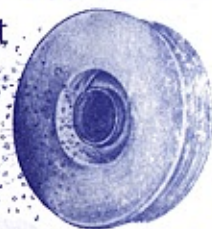

As the gathering of this scum accumulates it also retains moisture which can contribute to bacteria and mold growth. **CLEAN • WAY™** is specially formulated with a natural citrus solvent that dissolves this built up scum. With regular use you can keep the inside of the pipes and pump as clean as your tub itself with a fresh clean citrus scent.

NO internal bath tub ring after  
**CLEAN • WAY™**

If you haven't cleaned your whirlpool system lately, it might be time to treat your tub. You will see this build up come out through the jets as it is being dissolved and cleaned off the inside of the pipes.

Repeat the treatment until your tub water is clean and clear. To keep your whirlpool system clean use **CLEAN • WAY™** once a month.

### Works great on:

- Acrylic
- Cast Iron
- Cultured Marble
- Fiberglass
- Porcelain Tubs

and plastic or copper pumping system

## For a Healthier Bath
