

THE **AMERICAN** **AquaHeat** **SYSTEM**

**FREE HEAT
FOREVER!**

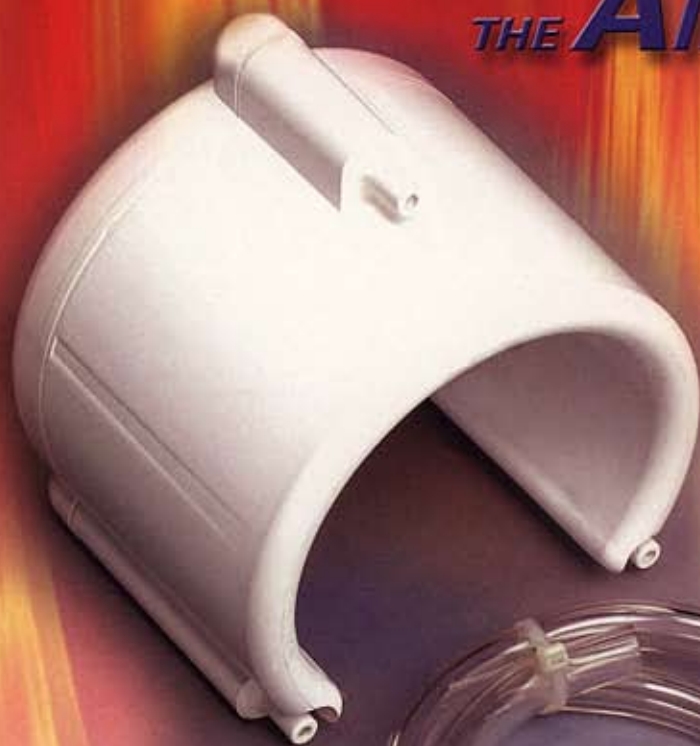

The #1 complaint with a whirlpool bath — the water cools down too fast. The AquaHeat System eliminates that problem FOREVER!

Water circulates through the AquaHeat jacket, collecting heat generated by the motor.

THE **AMERICAN** **AquaHeat** **SYSTEM**

- Baffles inside jacket create friction and friction creates **HEAT**.
- The jacket walls are thinner than our competition's which allows more heat to enter the tub more quickly.
- The jacket covers 275 degrees of the motor which allows 20% more absorption of heat than other models.
- The AquaHeat System is safe, economical and maintenance free.
- Will maintain water temperature almost indefinitely.
- Helps motor run cooler which extends motor life and efficiency.
- Call for Spa or Hot Tub model.

*The AquaHeat System is simple to install —
just snap it on and hook it up!*
